PROJECTS

Mini HTML/CSS Projects

•Built small responsive pages and UI designs to practice layout, positioning, and design elements.

Tic-Tac-Toe Game (JavaScript, HTML, CSS)

•Developed an interactive browser-based Tic-Tac-Toe game using core JavaScript, HTML, and CSS.

Rock Paper Scissors Game (JavaScript, HTML, CSS)

•Created a simple, interactive Rock-Paper-Scissors game playable against the computer.
•Used DOM manipulation to reflect player choices and results.

NewsMonkey App (React.js, News API)

•Built a dynamic news web app using React.js to fetch and display live news articles across categories.
•Integrated NewsAPI to display real-time headlines with infinite scroll and category filtering..
•Responsive UI with Bootstrap 5 and custom CSS.

Text Utility App (React.js)

• Developed a single-page React application for performing text transformations such as uppercase/lowercase conversion, word/character count, and whitespace cleanup.
• Live Demo:
