Professional Summary

MERN Stack Developer with expertise in building full-stack web applications using MongoDB, Express.js, React.js, and Node.js. Strong technical skills in responsive UI development and RESTful API design with focus on performance optimization and scalable architecture.

Education

Master of Computer Applications (MCA) 2023 – 2025
IIMT College of Engineering, Greater Noida

Bachelor of Science in Mathematics 2019 – 2023
Hindu College, Moradabad

Professional Experience

MERN Stack Developer Aug 2025 – Nov 2025
The Entrepreneurship Network *Internship*

- Developed Real Estate Platform with MongoDB, Express.js, React.js, and Node.js featuring property management system
- Built admin dashboard with CRUD operations to add, edit, and remove property listings with advanced search and filtering
- Implemented testimonials feature and RESTful APIs for property data handling and user authentication
- Created responsive user interfaces with React.js, HTML5, CSS3, and ES6+ JavaScript ensuring cross-browser compatibility
- Optimized application performance through code splitting, lazy loading, and efficient state management

Frontend Development Intern July 2025 – Aug 2025
PearlThoughts *Remote*

- Developed Single Page Applications (SPAs) using React.js with component reusability and maintainable code architecture
- Integrated REST APIs for dynamic data rendering with comprehensive error handling and loading states
- Collaborated with design team to translate UI/UX mockups into pixel-perfect, responsive web interfaces
- Participated in code reviews and implemented feedback to improve code quality and follow best practices
- Deployed applications using CI/CD practices on cloud platforms with version control through Git/GitHub

Technical Projects

AI Interview Preparation Platform | *MERN Stack, AI Integration, JWT, Tailwind CSS*

- Live: https://a-i-interview-client.onrender.com
- Built full-stack AI-powered platform simulating real interviews with dynamic question generation based on job roles and experience
- Implemented secure JWT authentication, AI feedback system analyzing communication and confidence, and performance tracking dashboard
- Developed real-time interview interface with timer functionality, progressive question flow, and response recording capabilities

E-commerce Application (Zentra) | *React.js, Node.js, MongoDB, Express.js, Stripe, Razorpay*

- Live: https://zentra-frontend.vercel.app
- Developed full-stack e-commerce platform with complete product catalog, shopping cart, wishlist, and multi-payment gateway integration
- Built RESTful APIs for product management, order processing, inventory tracking, and secure JWT-based user authentication
- Implemented advanced features including product search, filtering by category/price, user reviews, and order history tracking

Real-Time Chat Application | *React.js, Node.js, Socket.io, MongoDB, JWT*

- Live: https://chat-app-frontend-omega-sand.vercel.app/login

- Engineered real-time messaging platform using Socket.io for instant bidirectional communication with WebSocket connections
- Implemented secure authentication, private one-on-one messaging, group chat functionality, and online/offline status indicators
- Built features including typing indicators, message read receipts, chat history, and user profile management

Real Estate Platform | *React.js, Node.js, MongoDB, Express.js, REST APIs*

- Created comprehensive property management system with admin dashboard for complete CRUD operations on property listings
- Implemented advanced search and filtering by location, price range, property type, and amenities with MongoDB aggregation
- Integrated testimonials feature, property image upload, and inquiry contact forms with responsive design across all devices

Technical Skills

Frontend Technologies: React.js, JavaScript (ES6+), HTML5, CSS3, TailwindCSS, Bootstrap 5, Responsive Design
Backend Technologies: Node.js, Express.js, RESTful APIs, Socket.io, JWT Authentication
Databases: MongoDB, MySQL, Database Design, Query Optimization
Development Tools: Git, GitHub, VS Code, Vite, Webpack, npm, Postman, ThunderClient
Cloud & Deployment: AWS, Vercel, Netlify, Render, CI/CD
APIs & Integration: Stripe API, Razorpay API, REST APIs, Payment Gateway Integration, Third-party APIs

Certifications

JavaScript for Beginners – Udemy
Java Programming – Anudip Foundation
