Professional Summary

AI-Powered MERN Stack Developer with 1+ year of experience building scalable full-stack web applications and AI-integrated platforms. Proficient in **React.js, Node.js, Express.js, MongoDB, and OpenAI API** with hands-on expertise in **RAG systems, LangChain, role-based authentication**, and RESTful API design. Passionate about delivering production-ready solutions with clean architecture and measurable performance improvements.

Work Experience

•YSkilled Education — *Oct 2025 – Oct 2026*

MERN Stack Developer / Full Stack Developer, Noida

- Developed and maintained **3+ full-stack web applications** using **MERN stack** with responsive UI, RESTful API integrations, achieving **20% faster load times** via performance optimization.
- Integrated **third-party APIs and databases**, resolved **15+ production bugs**, and delivered scalable features within a **cross-functional team of 6** engineers.

•The Entrepreneurship Network — *Aug 2025 – Nov 2025*

MERN Stack Developer

- Developed a **Real Estate Platform** (MERN stack) with property management, admin dashboard, and advanced search/filtering, reducing manual listing effort by **40%**.
- Built **8+ RESTful APIs** for property data, user auth, and testimonials; improved app performance by **35%** via code splitting & lazy loading.
- Delivered **fully responsive UIs** across 5+ screen sizes using React.js, HTML5, and CSS3, ensuring 100% cross-browser compatibility.

•PearlThoughts — *Jul 2025 – Aug 2025*

Frontend Developer, Remote

- Built **3 SPAs** in React.js with reusable component architecture, REST API integration, reducing code duplication by **30%**.
- Translated **UI/UX mockups** into pixel-perfect responsive interfaces; deployed via **CI/CD pipelines**, cutting release time by **25%**.

Main Projects

•AI-Powered Hospital & Doctor Management System — *2026*

React.js | Node.js | Express.js | MongoDB | OpenAI API | JWT — Live ↗

- Built full-stack **AI-powered healthcare platform** featuring **symptom analysis, doctor recommendation engine, medical report summarization**, appointment assistance, and **AI chatbot** support.
- Implemented **JWT authentication, role-based dashboards (RBAC)**, patient/doctor management, **appointment scheduling**, and automated healthcare insights to streamline hospital workflows.

•AI Interview Preparation Platform — *2026*

MERN Stack | OpenAI API | JWT | Tailwind CSS — Live ↗

- Built full-stack **AI-powered interview simulator** with **dynamic question generation** by job role, **AI feedback** analyzing communication & confidence, and **performance tracking dashboard**.
- Developed **real-time interview interface** with timer, progressive question flow, **response recording**, and **JWT-secured authentication**.

•E-Commerce Application (Zentra) — *2025*

React.js | Node.js | MongoDB | Express.js | AI Integration | Stripe | Razorpay — Live ↗

- Built full-stack **e-commerce platform** with **AI-powered product recommendations**, catalog, cart, wishlist, and **dual payment gateway** (Stripe & Razorpay) with **JWT authentication**.
- Designed **RESTful APIs** for **order processing, inventory tracking**, AI-driven search/filtering, user reviews, and complete order history management.

•Real Estate Platform — *2025*

React.js | Node.js | MongoDB | Express.js | AI Integration | REST APIs — Live ↗

- Built **property management system** with **AI-powered recommendations**, **admin dashboard CRUD**, and advanced **MongoDB aggregation** search/filtering by location, price & amenities.
- Integrated **AI chatbot** for property inquiries, **image upload**, testimonials, and contact forms — fully responsive across **all screen sizes**.

Technical Skills

Languages: JavaScript (ES6+)
Frontend: React.js, HTML5, CSS3, TailwindCSS, Bootstrap 5, Responsive Design
Backend: Node.js, Express.js, RESTful APIs, Socket.io, JWT Authentication
Databases: MongoDB, Firebase, Database Design, Query Optimization
AI & GenAI: OpenAI API, Gemini API, LangChain, RAG (Retrieval-Augmented Generation), AI Chatbot, Prompt Engineering, Vector Embeddings, Symptom Analysis, AI-powered Recommendations
AI Productivity Tools: Claude, Claude Code, GitHub Copilot, Antigravity, Cursor, ChatGPT, Google Gemini (AI-assisted coding, debugging, code review & rapid prototyping)
Cloud & Deployment: AWS, Vercel, Netlify, Render, CI/CD Pipelines
APIs & Integration: Stripe API, Razorpay API, Payment Gateway Integration, Third-party APIs
Tools: Git, GitHub, VS Code, Vite, Webpack, npm, Postman, ThunderClient

Education

•IIMT College of Engineering – MCA — *Aug 2023 – Jun 2025*

Greater Noida

•Hindu College – B.Sc. Mathematics — *Aug 2019 – Jun 2023*

Moradabad
